

LECTURE

CAPTURE NOTICE

Course Name:

Course Code:

Semester:

Lecture Capture will be in effect during this class, **for the purposes of making content available to members of the Humber community, including current and former students and employees.** Content captured by the camera(s) will be posted to Panopto. While the purpose and intent is to primarily capture the professor, it is possible that your voice and/or image will be captured by the camera(s). All content captured will be stored on Humber-approved software, which may have servers located in Canada or the United States of America.

Should you wish to be excluded from the recorded content:

Please sit in the off-camera zone that has been designated by your professor. Should you have questions during the class, it is recommended that you work out a method with your professor in advance, so that they can avoid capturing your voice in the background. For example, the professor can pause the camera or disable the microphone while you are asking a question.
